- Low

**Summary of Incidents**

There was one critical and two major incidents to report.

Date	Incident Type	Risk Rating	Description
12/03/2013	Perimeter Breach	CRITICAL	Client [REDACTED] attempted to jump the fence line at [REDACTED] however, a CSO pulled him down from the fence and instructed him to cease his behaviour. [REDACTED] then jumped the fence again and headed towards the staff mess area. The CSO called a code green and then made his way to the [REDACTED]. The CSO stood in the path of the client whilst other CSO's came to his assistance. The client willingly went to the [REDACTED] with the CSO escort. After a short time in the [REDACTED] the client attempted to climb over the shade cloth towards the car park. He was stopped by CSO's. The police were called and they attended. The client left the RPC with police at 16:32
12/03/2013	Self Harm	MAJOR	Client [REDACTED] was found in his tent [REDACTED]. CSO's saw client with his left wrist slashed several times. IHMS was called and attended. The client refused to leave the tent to get assistance at IHMS. CSO's restrained client and escorted him up the shade cloth area. Client had to be restrained on the ground as he was uncooperative with IHMS and Wilson. Client was shouting "freedom" and Crying. IHMS sedated the client and then attended to his injuries.

12/03/2013	Hanging	MAJOR	<p>Client returned to the compound at approx [REDACTED].</p> <p>Client [REDACTED].</p> <p>At [REDACTED] hours 12/03/13 in client tent [REDACTED] [REDACTED] was located hanging by his neck from a support beam in the tent by two (2) CSO's. He was cut down, placed on a bed, he was breathing by unconscious, assessed by IHMS, removed to IHMS for medical treatment. [REDACTED] condition is stable and he remains in IHMS for observation.</p>
12/03/2013	Self Harm	MAJOR	<p>Client [REDACTED].</p> <p>At [REDACTED] hours 12/03/13 [REDACTED] was in the client shower block when he placed a plastic bag over his head and commenced to bash his head against the shower wall. CSO entered the shower, tore the plastic bag off [REDACTED] head and attempted to restrain [REDACTED], a number of CSO's attended and assisted in restraining [REDACTED]. He was carried to IHMS, where he continued to struggle, medical staff requested CSO's to continue restraining [REDACTED] whilst they treated him. [REDACTED] received no injuries from this incident. He was sedated and placed into the managed accommodation under constant welfare watch.</p>

### **Analysis of Client Activity**

#### **Group dynamics:**

There continues to be incidents of self harm within the centre and this is not having an effect on the general mood of other clients. There have been reports of nationalities being approached by clients participating in the protest action trying to bully them into joining the action. The other clients are not willing to join and have stated so to CSO's and these clients.

The peaceful protesting is continuing daily at 1700 in the client compound.

#### **Client movements:**

Nil

#### **Excursions/ Activities:**

Excursions are continuing as normal.

#### **Key Stressors: Weather, Environment, Infrastructure**

Construction is continuing within the compound.

#### **General Comments**

Peaceful protests – The protests are steadily decreasing in numbers but remains majority [REDACTED] with a couple of [REDACTED] participating. The Voluntary Starvation protest numbers are slowly declining within the compound.
